

BUILT SPECIFICALLY FOR COLLEGES

Every student journey. One connected system.

A practical ERP for admissions, academics, fees, student records, examinations, communication and decision-ready reporting.

PRODUCT BROCHURE 2026

A PRODUCT OF SOFTWARE SAMADHAN

ONE COLLEGE, ONE OPERATIONAL VIEW

Built around the work college teams perform.

erpGo connects the student-facing journey with the administrative actions behind it. Information moves from registration through admission, payment, study, examination and reporting without recreating the same record at every desk.

01 STUDENT SELF-SERVICE

A clear path for applications, subject choices, payment, receipts, status, notices and semester progression.

02 COLLEGE CONTROL

Configurable sessions, departments, courses, fee rules, approval queues, restrictions and user access.

03 CONNECTED FINANCE

Online and recorded payments, transaction verification, receipts, reconciliation views and pending-payment review.

04 ACADEMIC EVIDENCE

Examination forms, admit cards, marks, attendance sheets, operational reports and export-ready datasets.

CURRENT PRODUCT FOCUS

Purpose-built for colleges

The current erpGo edition is designed for college admission, academic administration, fee collection and examination operations.

EIGHT CRITICAL AREAS

Every important desk. One college ERP.

Each module supports a clear college workflow while sharing the student and institutional context required by the next process.

01

ADMISSIONS

OTP registration, applications, approval, enrolment and acknowledgement.

02

ACADEMICS

Sessions, streams, departments, courses, subjects and combinations.

03

FINANCE

Fee heads, amounts, payment windows, receipts and verification.

04

STUDENTS

Profiles, records, corrections, transfers, pass-out and accounts.

05

EXAMINATIONS

Forms, roll numbers, admit cards, attendance, marks and reports.

06

RE-ADMISSION

Renewal, eligibility, payment, approval and semester progression.

07

COMMUNICATION

Notices, SMS workflows and mobile-app notifications.

08

REPORTING

Admission, finance, subject, defaulter and ID-card datasets.

A CONNECTED STUDENT LIFECYCLE

One record moves forward. The student stays informed.

The portal gives students ownership of their steps while the college retains review, approval and reporting control.

01

REGISTER

Protected account and verified contact details.

02

APPLY

Personal, academic, bank, address and subject details.

03

PAY

Applicable form or admission fee with receipt.

04

TRACK

Application, admission and payment status.

05

STUDY

Profile, subjects, notices and examination records.

06

PROGRESS

Re-admission for the next eligible semester.

STUDENT PORTAL

New admission | Re-admission | Payments | Notifications | Results | Profile

FOCUSED FOR EVERY ROLE

Control for teams. Clarity for decisions.

erpGo organises repeated college work into focused operational areas, with the outputs each team needs to complete the next action.

01

ADMINISTRATION

- + Institution setup
- + Applicant review
- + Enrolment queues
- + Student records
- + Role-aware accounts

02

ACCOUNTS

- + Fee configuration
- + Payment windows
- + Gateway status
- + Receipts
- + Reconciliation

03

EXAMINATION

- + Form registration
- + Eligibility
- + Roll and registration
- + Admit cards
- + Marks and reports

REPORTING AND EXPORTS

Turn college records into practical outputs.

Admission review, transactions, subject verification, examinations, ID-card preparation and management reporting.

SEE THE WORKFLOW AROUND YOUR COLLEGE

Connect every team around the student.

A focused erpGo demonstration can follow your college's admission, fee, academic and examination workflow so stakeholders see the relevant process in context.

A USEFUL DEMONSTRATION COVERS

- + Your academic structure
- + Admission and enrolment
- + Fee and payment rules
- + Student portal
- + Examination operations
- + Reports and exports
